

Identification While in the United States

Section 264(e) of the Immigration and Nationality Act [8 USC 1304(e)], a provision that has been “on the books” for decades, requires every alien 18 years of age and over to “at all times carry with him and have in his personal possession” the “certificate of alien registration or alien registration receipt card” issued to him or her by DHS. The registration document is usually Form I-94 for nonimmigrants, or Form I-551 “greencard” for lawful permanent residents.

You may decide that having photos of your documents available on your phone is more practical; however, if you do please use a secure way to store them such as LastPass or 1Password. In addition, you may find it helpful to have a Maryland State Identification Card to verify your identity and that you were federally compliant at the time of the issuance of the identification card. Maryland State Identification Cards are issued by the Maryland Motor Vehicle Administration.

What should I do before going to the Motor Vehicle Administration?

To begin the processes for an Identification Card, you will need to submit an electronic [SAVE Verification Request Form](#) online. Once you have submitted the form, a MVA representative will contact you with the verification results and information to continue the process. If you experience any difficulties with the form, or do not receive a response within five (5) business days, please send an e-mail to sdecal@marylandmva.com. Since it can take a few days to process this form, please do this plenty in advance of your MVA trip.

In addition to completing the SAVE Verification process, you will need to bring documents that prove your age/identity and also your residency in the state of Maryland.

What documents are acceptable to prove my age/identity?
