

# DVD → DVD

**Note: This machine will only record on DVD-Rs**

1. Place original DVD in the left DVD player.
2. Place blank DVD-R in the right DVD recorder.
3. Make sure the right DVD recorder is set to IN1, using the Channel button on the recorder.
4. Set the TV to video, by pushing the channel buttons until VIDEO appears in the top right corner of the screen.
5. Press PLAY on the left DVD player. Check to make sure the machine will record properly by seeing if the image is being shown on the screen.
6. Press RECORD on the right DVD recorder.
7. When it is finished playing through, press the STOP button on both players.
8. **You MUST finalize your copied disk before you will be able to play it in other DVD players.**

## TO FINALIZE

1. Press the FUNCTIONS button on the DVD remote for the DVD player on the right.
2. Use the up and down arrows on the DVD remote to select OTHER FUNCTIONS at the bottom and then DVD MANAGEMENT.
3. Again, using the up and down arrows on the DVD remote, select FINALIZE at the bottom of the list. In the following prompts, press YES and then START.
4. The process should take a few minutes. When it is complete, your DVD copy will be playable on a computer or a DVD player.

**Please make sure to take both your original DVD tape and DVD copy when you leave.**
