

**How to Allow Cookies in Mozilla Firefox Browser  
Guide for Online Blackboard Students  
Welch Center for Graduate & Professional Studies  
Goucher College**

<p>Open Mozilla Firefox</p> <p>Select <b>Tools</b></p>	 <p>The screenshot shows the Mozilla Firefox browser window. The title bar reads "Goucher College Education Without Boundaries - Mozilla Firefox". The menu bar includes File, Edit, View, Go, Bookmarks, and Tools. A red arrow points to the Tools menu. The address bar shows "http://www.goucher.edu/". The main content area displays the Goucher College logo and navigation links for Prospective Students, Parents, Current Students, and Graduate Studies.</p>
<p>Select <b>Options ...</b></p>	 <p>The screenshot shows the Mozilla Firefox browser window with the Tools menu open. The menu items include Web Search (Ctrl+K), Read Mail (0 new), New Message... (Ctrl+M), Downloads (Ctrl+J), Extensions, Themes, JavaScript Console, Page Info, Clear Private Data... (Ctrl+Shift+Del), and Options... A red arrow points to the Options... option.</p>
<p>Options Window opens</p> <p>Select <b>Privacy</b></p>	 <p>The screenshot shows the Mozilla Firefox Options dialog box. The Privacy tab is selected and highlighted with a red arrow. The dialog box has tabs for General, Privacy, Content, Tabs, Downloads, and Advanced. The Privacy section includes fields for Home Page location (http://www.goucher.edu) and buttons for Use Current Page, Use Bookmark..., and Use Blank Page. There is also a checkbox for "Firefox should check to see if it is the default browser when starting" and a Check Now button. At the bottom, there are OK, Cancel, and Help buttons.</p>
