

About the IRS Verification of Nonfiling Letter

In some cases an individual may need to submit a 2021 Verification of Nonfiling Letter that you can get for free from the IRS. The two ways to order are below. Parents are usually able to get one online, but most dependent students cannot order online and will need to use Form 4506-T. **Please note that IRS Form 13873 is only acceptable if it clearly states that the form is provided to the individual as verification of nonfiling, or states that the IRS has no record of a tax return.**
