The screenshot displays the PowerCAMPUS SELF-SERVICE interface. At the top, it says "Welcome Robert (robsmith)" and includes links for "Cart", "Portal", "Help", and "Log Out". The main navigation bar contains "Home", "Register", "Advising", "Classes", "Finances", "Grades", "Search", and "Adm". Below this, a sub-navigation bar shows "Schedule", "Enrollment", and "Grading".

The "Grading - Overall Grades" section is active. It features a "Select Course" dropdown menu and the instruction "Or... browse the courses below:". Below this instruction, there are two columns of selection options:

- Year:** A vertical list of years: 2009, 2008, 2007, and 2004. The year 2009 is currently selected.
- Undergraduate Term:** A vertical list of terms: Spring, Undergraduate Term, and AST 210/Lecture/001. The "Spring" term is currently selected.

On the left side of the page, there is a sidebar with the following sections:

- Overall Grades**
- Options** (with an upward arrow)
- Recent Courses** (with an upward arrow)

The "Recent Courses" section contains a list of five items:

6. Enter the student’s grade into the My Grade column. Click the Save button to save the grades. You can continue to make changes to assigned grades until you click the Submit Final button. The Submit Final button writes the grades to the student’s transcript. Any changes to grades will need to be made by SAS once the Submit Final button has been used. You can enter a grade in the My Grade column and submit it as final up until the time the grading period has closed.

If you need to submit a portion of your grades, as in what happens when grades are submitted early for graduating students, enter the grades and submit those as final. You’ll be able to enter the other grades later, until you submit those as final.
